

2015 Australian Carnival Report – September Year 2014

Orienteering Victoria Board/Council Meeting

RECOMMENDATION <i>Actions or Decisions required---None</i>
--

OVERALL STATUS	Good
-----------------------	------

1. ACTIVITIES & PLANS

Focus in recent weeks has been on matters to do with the Australian Sprint location. Ballarat and Clarendon College decided that there was too much other activity around the school on the allocated day to allow the event to enter the school grounds. Resolved to contain the event at this stage within St Patricks College.

I have had discussions with St Pats this week to determine if there are any limiting factors from their perspective. A few points have been circulated to key drivers of this event.

Budget to be fine-tuned in coming weeks for presentation in October.

Mapping update also scheduled for October.

2. HIGHLIGHTS

New brochure is being prepared for distribution in WA and Tasmania, and a few promotional T-shirts are being organised for WA.

3. ISSUES, CONCERNS & RISKS

Still awaiting some quotes for the budget and some information on dam works at St Georges Lake which may impact on parking options for Vic Middle Champs.
