* Second club membership

** Tom Norwood has not renewed life membership on Eventor. Tom is in palliative care and Leslie has asked that the AO magazine not be sent to him.

The 174 figure is rubbery as it includes some Social members. The Social category includes 'second club members' who are members of OV, and club members who are not OV members.

At this stage, we have 143 AO magazines subscriptions. There are 112 member households that have not taken a magazine subscription.

There have been several cases where members have shown up on club membership lists, but not on the OV membership list. This has occurred when club reps added memberships on behalf of members. There could be more people recorded on club membership lists who have paid their OV subscription.

From the data it appears that we have 10 more juniors than is shown on club lists.
