

## **AREA EMBARGOES**

Orienteering Victoria follows OA rules for area embargoes.

Areas to be used for future championship events should be published well in advance and declared to be out of bounds to all orienteers.

The location of such areas must be published in The Australian Orienteer and should be notified to the Victorian Rogaining Association. The list of current out of bounds areas should also be published in O-Vic magazine.

The Victorian Rogaining Association has agreed to notify Orienteering Victoria if a forthcoming rogaine is to be held on an area embargoed by OV. Arrangements would then be made for the handling of that particular event.
