In the case of groups, only the group leader need report to the time-keeper.

All bicycle orienteers must complete the course with their bicycle.

The Results

The results will be displayed approx. 30 minutes after finishing.

It is essential that all participants (or the group leader) report to the finish before 4:30 p.m. or a search for missing participants will be commenced.

Special Advice

The route marked in red has been chosen to link up the best cycling tracks from the Reservoir to the gate in the boundary fence. It is strongly recommended that cyclists use this route for the return journey, as these tracks are the fastest and safest. The checkpoints are numbered so that most tracks are used only in the one direction. Nevertheless, where possible keep to the left.
