

## OV Membership Report Sept 16, 2015

I have endeavoured to reconcile OV membership records against Club memberships. This takes a considerable amount of manual handling and checking of the data. I rely on the membership entries being accurately entered at Club and OV levels.

We should investigate ways to improve data handling, for the generation of these reports and address labels.

The improvements being made to Eventor should make data handling easier.

Membership is up by 10 or 11 since last month's report.
